
The two big cost levers: medium price (x) and reactor scale (lines)
floor plant (no clean rooms, perfusion)
as reported (default)
cautious (pharma-style, half the density)
reported ($0.50/L)
irreducible floor ~$13.2/kg
parity needs biomass ≤ $7/kg
medium range in the model
0.20 to 1.00 per litre
Biomass cost ($/kg wet)
